We are highly thankful to Dr. Salem, PNBA Director for the support and permission to visit.

A big thanks to 5T0JL/Jean for making this possible and his hamspirit throughout.

In **Banc d'Arguin**, which became a National Park in 1976 and a UNESCO World Heritage Site in 1989, is located in the tropics at the junction between the Palearctic and Afrotropic zone; it is the place where some 300 species of birds from three continents converge, many of whom owe their survival to this crucial breeding or wintering area.
